

Specialist Automation (w/m/d)

LOCATION: Hamburg

REPORTS TO: Digital & Automation Manager Europe

DIRECT REPORTS: None

Company Background:

Ingredion is a global Fortune 500 provider of ingredient solutions that touch millions of lives, every day. With over 19,000 customers in 120 countries, we create solutions that help nourish, comfort, and delight people all over the world. We are proud to source our strength from nature. That's why we're growing sustainably, with an industry-leading product portfolio that includes plant-based proteins, sugar alternatives and clean and simple ingredients that deliver on changing consumer needs while protecting our planet. Although we are best known for our food ingredients, we are much more than a food business. We co-create bespoke solutions with our customers; from cosmetics and beauty to paper and textiles, to pharmaceuticals, driven by relentless curiosity. We make it our business to anticipate industry trends, and to bring together the potential of people, nature and technology to make life better.

We don't just make ingredients. We create possibilities. Join us.
